

— Coarse Index Theory

Summer School, September 26-30, 2016, Freiburg.

Topic: Introduction to operator K-theory, second index theory, and coarse index theory

Program: Lecture series by John Roe (Penn State), Thomas Schick (Göttingen), and Rudolf Zeidler (Göttingen). Daily exercise and discussion sessions are planned.

Website: https://www.gk1821.uni-freiburg.de/event/summerschool/Summer_School_2016

Organizers: Nadine Große

Funding: As a general rule, you are supposed to arrive with your own funding but there are also some limited funds available.

Registration: Please send an informal e-mail to enroll until September 1 to Mrs. Ursula Wöske coarse16@math.uni-freiburg.de, who also arranges accommodation.
